**Listen, it's not funny, Wright?!?**

Now, I have been called many, many things over the years by many people, but the same mistake gets made and more recently on several occasions I have been likened to the famous and successful radio DJ, Steve Wright!

Believe it, or not, I am a few years younger than Mr Wright, so with the exception of a receding hairline, facial hair and the specs, I shouldn't be mistaken for Steve Wright!

**The old girl did us well, but now she's gone!**

Finally, our large van that has worked so well since we took ownership back in 2002, has decided to call it a day.

Having been a regular and popular sight on the local roads, the time has come to replace 'the old girl' with a newer model that we hope too will work well for us and help us get to you all on time and with reliability. Keep an eye open for the new van on the road very soon!

**So what's new and what have we been up to lately?**

The last few months have seen us clearing over 5 large floors of office space for a local client of all waste furniture and items of waste. So far over 40 tons of waste wood and metal have been sent for recycling with some 6 tons of general waste being sent for sorting and landfill.

This is always a very busy time of the year for the secure shredding side of the business, but this year we have seen a huge increase in volumes of sensitive waste paper being shredded.

Our used office furniture is steady with a constant changing stock list we have been able to supply many clients with some good quality used office furniture at very, very reasonable prices.

For some time we have been asked to provide a secure method of 'Hard Drive Data Destruction' service and although it has taken us a while we are now pleased to be able to offer this service (see information above) at very realistic prices.

We are very pleased to have taken delivery of our new vehicle, which although we were not planning to replace has become necessary due to regular breakdowns and expensive maintenance costs, so eyes open for the new one soon!

**Hard Drive Data Destruction**

We are now pleased to be able to offer a complete 'Hard Drive Data Destruction' service.

For the secure and certified wiping of all data to UK HMGIS5 standard, you will also receive a certificate of destruction listing details of the hard drives wiped including the serial number, model type and size.

Call or email the office today for a quotation and more details.
