Fresh New Website launched

We are very pleased to announce the launch of our fresh new look website, that has been designed with new download features and information.

You will now be able to see and download all information regarding our health and safety policy, environmental policy, business insurance, waste carriers license and much more.

In addition you may also view current and past copies of 'Oak News' in the downloads section of the site.

A big 'Thank you' to James for all of his hard work, time and expertise in putting the new website together!

Please visit our new look website at www.oakservices.co.uk

Security Shredding and Waste Clearance

So, what have we been up to recently?

The last few months have been and always is a very busy time for security shredding as it tends to be annual clear-out time for many businesses. Although we are seeing a continuous increase in the need for confidential waste destruction.

We have also been very busy with waste clearance, which has seen us dealing with over 20 tons of waste in the last month and this doesn't include waste electrical equipment or fridges and televisions, which has also kept us busy recently.

And lastly our useful blue lidded crates have been out on hire over the last few weeks.

What a 'kayaking' good time!

When we are not too busy working or preparing the next issue of OAK NEWS, I can often be found enjoying any good weather that we have kayaking in either Poole Harbour, in and around Christchurch Harbour or along the River Stour.

Remember - Always wear sun cream!

PRESSURE CLEANING

- ✓ Commercial and domestic cleaning
- ✓ Buildings, driveways, patios & decking
- ✓ Pathways and walls
- ✓ Moss and fungi removal
- ✓ Contract work welcome
- ✓ Full insured professional workforce
- ✓ Fast & friendly service

A little fishy relocation story

You may remember some time ago my story of how we ended up with a fish tank and 3 small goldfish!

Well the time came where we made the decision that the 3 'not so small' goldfish would be much better off in a pond.

We made the plans (as we do with every move that we carry out) and carefully transferred the fish to their nice new home in a very well looked after garden pond.

A slightly sad time but made easier in the knowledge that they would be much happier there!
