Focus on 'Business & Office Moves'

I always remember when we had 2 clients wishing to move over the same weekend and at the time we were unable to help both of them.

Unfortunately, one of our clients, a small legal practice had to use a local competitor for their move. However, on the Monday after the move we had to send a team of 2 men to their offices to move most of the furniture and crates into position as the 'other' removal firm had merely placed everything into the correct room but not into it's final position because they had run out of time!

When we undertake any size business move, we ensure that everything is planned thoroughly, that we have enough resources and that you are completely satisfied before we leave.

The way that we see it is that the job is not complete until you are 100% happy. We think it makes all the difference between a bad move and a smooth move.

For free advice on any business, office or archive move call today.

CRATE HIRE

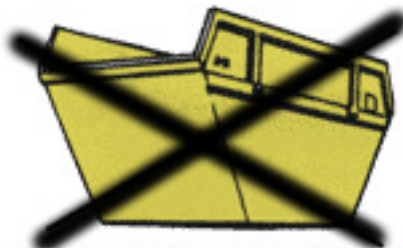

**Plastic lidded crates
available for weekly hire
from just 45p + Vat
each per week
(01202) 517888**

What a load of rubbish!

From just a single desk to the complete contents of a 9 storey office building, we can tailor a complete rubbish clearance service to suit your exact requirements.

During the last month or so we have cleared 2 vacant shops, a 4 bed flat, 8 offices for a local council and many fly-tipped properties. With many restrictions of where and how certain waste types have to be treated, it is much more cost effective to use our 'load and dispose' service rather than skip hire.

For the regular or one off collection and disposal of all your waste let us provide you with a complete waste solution.

Cheaper Than A Skip !

It was a clean sweep!

It seems so long ago, in fact over 25 years have passed since I was chief floor sweeper at a local joinery workshop after school each day.

I studied woodwork at school and was keen to learn more, starting with the sweeping of the workshop floor at Wakeley & Toms Joinery Works to earn pocket money.

Needless to say, that I didn't pursue a career in carpentry & joinery, but my floor sweeping skills were impressive and it is probably only fair to say that the workshop floor has rarely been as clean since!

Steve, who runs the business, has been a client since 1993 and he and his family are also good friends of ours.

I still visit the workshop on a regular basis, not to sweep the floor anymore, but to collect joinery products ready for delivery to his customers and we are also known to have a good attempt at putting the world to rights!

I am pleased to include with this issue of Oak News, some information on Wakeley & Toms and the service that they offer. Purpose made gates, doors, windows and in fact anything timber, Steve will 'craft' it for you.

In the next issue of OAK NEWS:

**'Free Recycling Audit' and 'New range
of waste containers launched'**
