Beware - Rogue Traders!

Identity Fraud increases, business information getting into the wrong hands continues, yet some companies and individuals still use the services of some Dorset based operators who are 'NOT' shredding your sensitive documents!

The correct destruction of your sensitive waste papers is your responsibility and not that of the operator that you hand it to. When some operators provide you with a 'Certificate of Destruction' it really is not worth the paper it's printed on.

Ask them one question, Can I come and view the shredding process? When the excuse given is 'NO' due to Health & Safety, Data Protection, Insurance or it is sent elsewhere for shredding, then you really should question as to where your documents are ending up and what really does happen to them.

Our 'in-house' shredding facility, located in Poole, is where all your personal and business documents are 'Shredded' and we actively encourage all clients new and old to come and view the shredding process. It is your 'Peace of Mind'.

For a confidential service in 'shredding' call the office today!

OAK Services goes green!

In many ways, we have always been green and in particular with regard to our environmental policy of diverting as much waste as possible away from landfill.

So the next step for us was for a complete re-branding of our small fleet of vans from our long standing colour's of blue and white, we changed over to a very fetching and eye catching green livery.

Some new marketing material is being designed as we speak and we hope to include this (together with photo's of the new vehicle branding) with the next edition of Oak News.

Oh what a 'crate' idea!

With over 225 blue lidded crates in stock, ready for fast delivery to assist you with all your moving, storing and distribution requirements.

Long and short term hire available, with some very competitive prices on offer for longer term hire requirements. Call the office today!

We would like to take this opportunity to wish all of our clients and friends a Very Merry Christmas and Happy New Year.

We look forward to seeing you all in the New Year.

STOP PRESS!

We are pleased to announce that we are now an approved SAFEcontractor. More news on this exciting achievement in the next issue of OAK News!
